Ash Grove Pro® Skim Patch

Ash Grove Pro® Skim Patch is a trowelable Portland cement based patching compound for use as a quick-setting floor underlayment.

Patch, repair and level uneven and irregular (1/2" maximum to feather edge) floor surfaces in preparation for the installation of flooring materials using Ash Grove Pro® Skim Patch. Ash Grove Pro® Skim Patch is a uniformly blended mixture of Portland cement, accelerators and redispersible polymers formulated to adhere to most surfaces before installing tile, carpet, vinyl tile or other floor coverings.

Ash Grove Pro® Skim Patch has several advantages including: portland cement based, interior or exterior, ready for covering in 1-2 hours, contains no gypsum, no odor, can be sanded after it cures and polymer modified. Just add water.

Ash Grove Pro® Skim Patch can be used under: resilient flooring, vinyl tile, and ceramic tile. Ash Grove Pro® Skim Patch can be used over: concrete, cement backer board, plywood, cementitious terrazzo, cut back adhesive and cork.

Features, Benefits & Procedures

Apply to surfaces that are frost free and above 50°F for at least 24 hours, before and after application.

Surfaces must be clean and free from loose particles and other possible bond breakers. Underlayment must be structurally sound, free from movement and dimensionally stable.

When mixing use cool, clean water, mix to smooth, lump free consistency. Let slake, and do not over mix. Mix small amounts that can be applied and worked in 5-10 minutes. Apply Skim Patch with a steel trowel using enough pressure to fill all defects and feather the subfloor to the desired finish.

The floor covering can be applied after 1-2 hours once the Skim Patch has completely dried. Adhering to recommended water additions is very important. Ash Grove Pro® Skim Patch will cover approximately 39 sq ft at 1/8" thickness. The coverage as a skim coat over plywood increases 2-3 times, depending on the thickness.

WINTER CONFERENCES

Thank you for all those that stopped by our booths this winter with the various shows we attended.

We are looking forward to continuing to build our business with all.
